

# I Got on a Snowboard!

I think it has been a year or so but since there were no lessons going on Friday night, I was able to check out (rent) a [snowboard](#) and I took it out on the great snow we had.

I had an absolute blast! It was so fun! It all came back to me. I was even riding switch fine. I really liked the snowboard boots, too. They had that dial on the front and that's a great system – really easy to use and much better than my own snowboard boots.

The snow was just perfect and it felt so smooth riding. It was super fun and I'd do it again in a heartbeat if that kind of fluffy snow was around again.

I don't teach snowboarding soon but I'd like to learn that and then get my Level 1 Snowboard Certification.
