

More Ski Camp 2014 Footage

In addition to the [video I made about the ski trip](#), I was able to get some footage of myself skiing during the camp. I've got gray pants on the first day and then red pants for days 2 and 3. Some of it is in slow motion, which we use to analyze every, tiny movement.

I'm on my Head Rev 90 skis, which I mainly use when I go out West. Great skis.

-Tony
