

# Only About a Month Left to Ski in the Midwest!

cascade-mountain-2016

It seems like we just got good snow and I realized there's only about a month left – depending on how much snow we get and the temperatures. It's time to get out there and ski! This winter isn't too cold, so now is the best time to learn if you don't know how.

A group lesson is just \$20 for 90 minutes of instruction at Cascade Mountain. There's even a great deal to get your rental equipment (boots, skis, poles and helmet), a lift ticket and a lesson. So, it's affordable.

Take a lesson because otherwise it'll take you years to figure out what we can show you in an hour or hour and a half. It's a fun lesson, too!

[I also do private ski lessons, just contact Cascade Mountain.](#)

Come out and ski!

-Tony
